PREPARING FOR THE EXAMINATION

TIPS FOR EXAM PREPARATION

The following suggestions will help you prepare for your examination. Planned preparation increases your likelihood of passing.

- Use the exam content outline provided in this bulletin as the basis of your study.
- Learn the major points associated with each outline topic.
- Underline or highlight key ideas for a later review.
- Read the reference materials, making sure you understand each idea before going on to another.
- Check off each topic from the outline when you feel you have an adequate understanding. Plan to take your test when all topics have been checked.
- Your studies will be most effective if you study frequently, for periods of about 45 to 60 minutes. Concentration tends to wander when you study for longer periods of time.
-

EXAMINATION CONTENT OUTLINES AND REFERENCE MATERIALS

If a test question answer could differ because of conflicting information in test reference sources, a legal requirement such as a code, law or regulation overrides any other reference. If two legal requirements appear to conflict, the state-specific code, law or regulation overrides the national one. Information from sources on the test reference list override information from other sources or persons.

The following examination content outline provides the topic areas and number of items for the Master and Journey Plumber/Gas Fitter and Natural Gas Fitter examinations as well as the specific Code reference.

PSI assumes no duty of care with respect to such items and makes no representation that the secure storage provided will be effective in protecting such items. If you leave any items at the examination site after your examination and do not claim them within 30 days, they will be disposed of or donated, at PSI's sole discretion.

TAKING THE EXAMINATION

The examination will be administered via computer. You will be using a mouse and computer keyboard.

IDENTIFICATION SCREEN

You will be directed to a semiprivate testing station to take the examination. When you are seated at the testing station, you will be prompted to confirm your name, identification number, and the examination for which you are registered.

TUTORIAL

Before you start your examination, an introductory tutorial is provided on the computer screen. The time you spend on this tutorial, up to 15 minutes, DOES NOT count as part of your examination time. Sample questions are included following the tutorial so that you may practice answering questions and reviewing your answers.

TEST QUESTION SCREEN

The "function bar" at the top of the test question provides mouse-click access to the features available while taking the examination.

One question appears on the screen at a time. During the examination, minutes remaining will be displayed at the top of the screen and updated as you record your answers.

IMPORTANT: After you have entered your responses, you will later be able to return to any question(s) and change your response, provided the examination time has not run out.

SCORE REPORTING

Your passing or failing indication will appear immediately on the computer screen at the end of your test. Exam results are confidential and will be revealed only to you and the Board/Department.

If you do not pass, you may submit a new registration form to PSI with the appropriate fee and schedule a new appointment to retake the exam. **YOU MAY NOT TAKE THE EXAMINATION MORE OFTEN THAN EVERY 30 DAYS.**

EXPERIMENTAL QUESTIONS

In addition to the number of questions per examination, a small number of five to ten "experimental" questions may be administered to candidates during the examinations. These questions will not be scored and the time taken to answer them will not count against examination time. The administration of such non-scored experimental questions is an essential step in developing future licensing examinations.

EXAMINATION REVIEW

Failing candidates will have the option of reviewing their examinations in a secure environment. Requests for an Examination Review must be made within 15 days after their examination. Candidates will be provided with a copy of the incorrectly answered questions in the examination, along with the candidate's answer. The candidate will have the opportunity to write down any matter that he/she wishes to bring to the Board's attention. The candidate's notes, together with a copy of the item, will be submitted directly to the Board. The Board will review the candidate's comments and make a determination as to the validity of the candidate's comments.

DUPLICATE SCORE REPORTS

You may request a duplicate failing score report after your examination by emailing scorereport@psionline.com or by calling (855) 746-8173.
